

Data sheet

Non return valve

VCM 10

1½" Vic. outlet (In-line)

Introduction

The function of the non-return valve is to allow flow in one direction while blocking it in the other. The valve incorporates a conical poppet design, which ensures sealing when used with a low viscosity medium such as water. Typically used in connection with APP (W) 5.1 - 10.2 pumps.

Features

The non-return valve is produced in stainless Duplex W. Nr. 1,4462. The sealing is an O-ring made of Viton. The valve is available for flows up to 11.5 m³/h or 190 l/min (40 gpm).

Technical data and code numbers

Type	Max. pressure bar (psi)	Flow continuously l/min (gpm)	Opening pressure bar (psi)	Pressure loss at max. flow bar (psi)	Inlet connection	Outlet connection	Code number
VCM 10 (In-line)	80 (1160)	190 (50)	0.3 (4.3)	1 (14.5)	Vic. 1½"	Vic. 1½" In-line	180H0047
VCM 10	80 (1160)	190 (50)	0.3 (4.3)	1 (14.5)	M42 x 1.5	Vic. 1½"	180H0049

Filtration

The fluid must be clean and free from abrasive sediments.

Dimensions

Victaulic® is a registered trademark of Victaulic Corporation Inc.
